- **Backend:** Node.js, Express.js
- **Database:** MongoDB, Mongoose , SQL (Basics)
- **Tools:** Git, GitHub, Postman, VS Code
- **Concepts:** REST APIs, MVC, JWT Authentication, CRUD Operations

Language

- English
- Hindi
- Gujarati

About Me

Hi, I'm Kevin Tarsariya, a BCA student and passionate MERN Stack Developer. I specialize in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. I enjoy turning ideas into scalable, user-friendly applications and solving real-world problems through clean and efficient code.

Projects

• Bookora – MERN Stack Online Book Store

Built a full-stack online bookstore using the MERN stack with role-based authentication, admin and user panels, book management, cart, and order features. Implemented secure REST APIs and integrated MongoDB with a responsive user interface.

🔗 Live Demo:- <https://bookora-frontend-pied.vercel.app/>

• Brainera – MERN Stack Learning Management System

Developed a MERN-based learning platform with secure authentication, course purchase, video learning, quizzes, and certificate generation. Included an instructor dashboard, protected routes, and a responsive UI built with Tailwind CSS.

• Kstore Online Shopping Website

KStore is a modern, responsive online shopping website built with HTML, CSS, and JavaScript. This project demonstrates front-end web development skills for creating e-commerce platforms.

MERN Stack Developer Intern – YesQuest

• 01 Dec 2025 – 28 Feb 2026 (3 Months)

Completed an internship as a MERN Stack Developer, contributing to full-stack web application development using MongoDB, Express.js, React.js, and Node.js. Worked on building REST APIs, implementing authentication, fixing bugs, and enhancing UI responsiveness while collaborating with the development team.
